Comments from All Reviewers

Please provide ratings and comments on the following project criteria (1 = low and 5 = high):

1 2 3 4 5 **Overall project quality**

Comments: 5, Honestly the project looks really good and also feels very complete. Everything seems well put together.

1 2 3 4 5 **Level of creativity and originality demonstrated in the project**

Comments: 4, It looks really creative and like a lot of effort was put into this project. It doesn't look way over the top, like an advanced project; instead, it looks like a strong, original university level project.

1 2 3 4 5 **Project contains an appropriate amount of information to meet its objectives.**

Comments: 5, The amount of information feels just right. It explains everything clearly without being too much or confusing.

1 2 3 4 5 **Quality of elements making up project (HTML/CSS, photos, vector graphics, video, audio, animation, web objects/elements)**

Comments: 4, The project is built well and everything works smoothly. The visuals too are amazing, but I feel like adding more animations or advanced features could make it more interactive.

1 2 3 4 5 **Project design (color, fonts, typography, layout/composition). The overall concept/theme/unified look of the website is effective.**

Comments: 5, The design felt very consistent. The colors and fonts go well together, and the layout is very easy to follow, anyone could understand the flow of the website.

Do you feel this project is appropriate to include in the student's portfolio considering skill-level demonstrated?

Comments: Yes, I think this project would be a great addition to the student's portfolio. It looks clean, shows her skills well, and feels professional.

Did you experience any technical difficulties as you navigated through the website or displayed the project?

Comments: No, I did not experience any technical difficulties while trying to navigate through the website. Everything worked smoothly and took me to what I was looking for based on the page titles.

What are the main strengths of the project?

Comments: The main strengths of this project are the clean design, how easy it is to navigate, and how organized everything is. All this makes the website and its flow easy to understand.

What are the main things that could be improved with the project?

Comments: I felt everything in this website looked fantastic but if I had to say one thing it would be that there could have been more interactive features like some animations. But other than that this is a solid project.
